¹ Data refer to members of a labor union or an employee association similar to a union.

² Data refer to members of a labor union or an employee association similar to a union as well as workers who report no union affiliation but whose jobs are covered by a union or an employee association contract.

³ The distinction between full- and part-time workers is based on hours usually worked. Beginning in 1994, these data will not sum to totals because full- or part-time status on the principal job is not identifiable for a small number of multiple jobholders.

NOTE: Data for 2001 have been revised to reflect the introduction of Census 2000-based population controls. In addition, data on "represented by

unions" incorporate a minor change to the allocation procedure for that item. The change in procedure had a negligible affect on the estimates. Some estimates for 2002 will differ slightly from those previously published in USDL 03-88, "Union Members in 2002." These differences are due to a change in the way the data were processed. Data refer to the sole or principal job of full- and part-time workers. Excluded are all self-employed workers regardless of whether or not their businesses are incorporated. Detail for the above race and Hispanic-origin groups will not sum to totals because data for the "other races" group are not presented and Hispanics are included in both the white and black population groups.
