²GGS Employment is the number of jobs related to the production of Green Goods and Services.

³GGS percent is the percentage of the GGS employment compared to the total employment. This value is derived by dividing the GGS employment by the total employment.

⁴Source: Quarterly Census of Employment and Wages (QCEW) 2010 annual average.

⁵Industries may not add to total because of unclassified NAICS employment in the QCEW. The unclassified NAICS sector is not shown separately, but it is included in the total.

⁶See technical note.

NOTE: GGS data for 2010 have been revised to incorporate methodological changes explained in the Technical Note. Please also note data may not add to total or subtotal due to rounding.
